QuickTax 2003:
1. Use keygen
2. Enter ANY 14 char long, ONLY number install key (for example: 15175373750637 OR 12345678912345)
3. Keygen will generate an activation code for your installation code
4. Start Install
5. Enter Install Key. Install may complain about it, but press Next. It will install anyways
6. Start QuickTax2003
7. An Activation wizard comes up. Choose Telephone Activation
8. Enter Generated Activation Code
9. Enjoy this software.

How to crack 3D Studio release 4 with a Hex-editor:

~~~~~

Hi,

Read your post on comp.graphics.packages.3dstudio. Your copy of 3D Studio r4 doesn't ask for a printer. Sentinel Pro is a hardware lock which must be plugged into your LPT port for 3DS to function. That's the legal way. Anyway, who cares? Below is the correct crack for 3D Studio r4:

Remove harlock defense

3DS.EXE

0005ACD8: 3D B8

0005ACDD: 74 EB

0006D282: 56 B8

0006D283: 68 B2

0006D284: C8 AA

0006D285: 27 FE

0006D286: 03 5B

0006D287: 00 C3

000874B9: 3D B8

000874BE: 74 EB

0008C0B1: 3D B8

0008C0B6: 74 EB

001041A2: 75 90

001041A3: 12 90

0011F84A: 56 B8

0011F84B: 68 4A

0011F84C: C8 52

0011F84D: 27 50

0011F84E: 03 7A

0011F84F: 00 C3

00126C92: 56 B8

00126C93: 68 9E  
00126C94: 68 28  
00126C95: A3 83  
00126C96: 02 45  
00126C97: 00 C3  
00182B8A: 56 B8  
00182B8B: 68 82  
00182B8C: 64 26  
00182B8D: 68 98  
00182B8E: 07 30  
00182B8F: 00 C3

Please let me know if it helped.

No, I am not an Autodesk undercover agent trying to get you to jail (though they should ;-). Yes, I do live in the Wild East and I haven't ever seen any legally purchased software here. Even at the parliament :-)

Regards,

Aldas (dcx@pub.osf.it)

=====

To ARJ v2.30 Secure you must do this :

~~~~~

Change the following bytes in arj.exe

BYTE location..... change 3530 from 75/05 to EB/0D

change 4568 from 75/06 to EB/0C

change 6555 from 75/06 to EB/0C

and the ARJ-Secure will work!

Take an ARJ'd file all ready made.

Type : ARJ z FILE.ARJ AV(caps) (the name to put on it)

NOTE, the name you put in on the command line

ARJ z FILE.ARJ AV name< may not contain SPACES >

If you want to have a Space, instead of hitting <SPACE> hold down the ALT Key and press 255 on the NUMBER pad ONLY !.

That will add a space !.

Those Byte locations are in DECIMAL !.

It only works in Arj v2.30

=====

How 2 "CRACK" Buttons 4 Dos 6.0 !!!!!!!!!!!!!

~~~~~  
It's Really easy 2 Make the unregistered Version 2 a REALLY FULL Version !

U have tried 2 Register the SharewareVersion, By the Normal Way (Mousepointer on the Header with the TxT "Register" ????'nd U Haven't any

KeyName or Pasword ..... ?????????????? So Here is A Really Simple Way 2

Register this Nice Tool .....

1. Step : Just Load Your Editor (Like MS-Edit) !!!!

2. Step : Have a Look 2 the File Named "Buttons.ini" !!! :-))

3. Step : There U can C Diz Line (Just a Little Cut !!!)

".. iRegister Y1 IIII"

(-> 1.....41 <- ONLY a HeLP 4 U)

Now U Clear Simple the txT "REGISTER" And Put YOUR Handle/Name into the Free Space (Don't Use more than 29 Letters 4 Ur Name, U Must Use the same Spaces as U have begun the ini-Edit) ! (Original File-Lengh : 103 Bytes)

An eXAMPLE :

".. iRegistered Version Y1 IIII"

1.....41

5. Step : Now Replace the Old Buttons.ini file with the "NEW" Edited

File and run the Program .....

Now U See that ALL (!) Functions will Run and U Can Use all

Pages of Programs .....

Done by: Dark-Raver (ALSo KNoWn aS OUTLiNE) in 1995 !!!!!!!!!!!!!

CD MASTER 3.1 (AND FUTURE VERSIONS)

~~~~~

MAKE A FILE CALLED CDPLAYER.REG.

AND PUT WITH HEX EDITOR THESE COMMANDS IN CDPLAYER.REG.

4F 4B 57 41 52 45 0D 0A 35 34 43 03 0D 0A

IT IS REGISTERED TO OKWARE

THEN COPY IT IN THE DIRECTORY WHERE CD MASTER IS INSTALLED.

=====  
=====

How to register any CELERITY version by a Hex-Editor

~~~~~  
Find this HEX string in the CELERITY.EXE File
10 46 8A 90 B4 A4 0E 56 AA 96 B0 C6 9C A2 B4 AA C6 00 00
This is currently registered to Abdul Clamwacker

Example:
10 46 8A 90 B4 A4 0E 56 AA 96 B0 C6 9C A2 B4 AA C6 00 00
A b d u l C l a m w a c k e r

To use this, all you have to do is match up the letter of your name (handle) with the chart I included. After your done, then replace the HEX string 46 8A 90 B4 A4 0E 56 AA 96 B0 C6 9C A2 B4 AA C6 00 00.

Example:
10 48 9E 8B 90 A3 96 B4 94 A2 B4 B5 1A 1C 1E 20 22 00 00
B l a c k d r a g o n

For some reason the name has to be 16 characters or it reports it as a bad Sysop name, so just put SPACES in for the rest of it. I haven't tried a name more than 16 characters, so I'm not too sure if it works or not (though it should). The way they encrypt the Sysop name is pretty easy to break. All you have to do is find a pattern that goes with it and the rest of it it easy. Now you can register all your copies of Celerity from 2.02 and below, you should be able to register all future ones unless they decide to change the method of registration (if they do, I'll put out another file! :-). If you find any problems with this please write me, you should be able to fine me!
HAVE FUN!

=====

Registration for FTP2000

~~~~~

1. Unzip the ZIP into any directory. Run FTP2INST.EXE
2. Once Installed, Copy the included RSAGENT.INI into your windows dir. Make Sure the RSAGENT.INI Overwrites the existing one
3. Run FTP2000. Goto Register FTP2000. A box should appear asking you for a unlock code.
4. Verify the personal # is 1772661559. It should be after copying INI

5. Enter this unlock code: YYNBRRVFNR (this is case sensitive-all caps)

6. You should then be reg'ed for the 20th century :)

Note: You may edit the RSAGENT.INI that is included, but do not change anything below the personal code line and do not change the personal code line or the above unlock code will not work. The personal code line Must be personalCode=1772661559 100% Tested

Your FTP2000 is now Registered!!

=====  
=====

CRT Telnet 1.12 b6.4

A Excellent Telnet program that can upload/download files using Z-Modem and can now automate logins!

Run NTCRT112.exe and use the following Reg Info ;

Name : FuJY

Company : Axis 9t6

HotDog Professional v3.08/v3.09 Registration Information:

Instructions:

Cut and Paste the Information that's BETWEEN the dashed lines.

Repeat: Cut and Paste, cut and paste, don't do it by typing.

=====snip=====

User Name: PoD  
Serial Number: 04TCPYH8102VEMQQM5PF

=====snip=====

After you paste, your cursor should be positioned at the space IMMEDIATELY following the last letter in the serial number (in this case it's an "F"). Make sure and hit the carriage return in order to move the cursor to the next line prior to clicking the register button. If you don't, this registration will fail.

Remember: Information is CASE SENSITIVE  
Spaces (presence and absence) DO COUNT  
"User Name" and "Serial Number" MUST be included.  
This Information is PROVEN to work, if you can't get it to work for you, then you're doing something wrong.  
Your HotDog Pro 3.08 32-Bit is now registered. Enjoy!

VideoCraft GIF Animator 32 Registration Info.

This is a very useful utility if you are doing WEB stuff. If you want your webpage looking good, you need this! This is one of the best features is that it can convert \*.AVI ==> .GIF. This utility was called the Utility of the day, that's all I can say. To remove the time limitation from your copy of VideoCraft GIF Animator, start the program and enter the following registration keys in the startup screen: 5591216 and 7574120

A message will appear on the screen verifying that the product is registered. You may now run the program for an unlimited period of time.

Your VideoCraft GIF Animator 32-Bit is now registered. Enjoy!

=====

Make any Quarterdeck serial number you want.

Here's how.

example...

000-18A-40708

the sum o' the first 3 and last five numbers must end with NINE (9)

0+0+0+4+0+7+0+8=19 (note the 9 in 19!)

So, you could use 000-xxx-00009 as a generic serial number for each and every quartereck product you assholes. Now stop asking for serial numbers!!

product codes go in the middle.

18A-qemm8

17A-qemm 7\*.\*

32H-Desqview

15A-sidebar

13A-cleansweep v-1

16c-cleansweep v-2

anyway, you get the idea!

=====

UltraEdit 4.20b crack patch (text info only)  
Using a hex file editor, open uedit32.exe and goto offset 15CAh. At  
that location you will see the byte string:  
0F 85 1A 01 00 00 8B 4D >original code  
E9 1B 01 00 00 90 >change to these values  
After changing the specified bytes to the new values, save the file  
(you may want to make a backup of the original executable). That  
should do it.  
This crack eliminates the shareware 'nag' screen and 45 day  
limitation. So far, I have not experienced any side effects after  
applying this crack to UltraEdit.  
Enjoy!

=====

=====

## CD-QUICK Cache v1.30 Registration Cracking Manual

/NAME=<username>

This parameter is for people who have registered CD-Quick. When you register you will receive a KeyCode that is derived from your name. This parameter is needed so CD-Quick can compare your KeyCode to your name. If they match, the opening shareware screen will not be displayed. Any spaces in your name should be replaced by underscores. Case is not important.

/KEY=<keycode>

This is the companion parameter used with "/NAME=" which was just described. Registered users receive a 4 digit hexadecimal number to supply as your KeyCode. For an example, if your name is John Smith and your KeyCode is 5A27, you should have:

CDQ /NAME=JOHN\_SMITH /KEY=5A27

As a registered user you will also receive lifetime technical support. (somehow I don't think so =) )

name: XXX key: 1209

name: You key: 00FD

name: Me key: DF92

name: Nobody key: 3BCC

name: Somebody key: C864

name: Who? key: 142E

name: ??? key: 7BBD

name: Nope key: 0D33

name: \\\ key: 2A15

Enjoy!

Then your Serial No. will be change to OC123456.

Search and Change all the strings in FDNC.OVR in same method.

=====

=====

NyStars V2.x:

(this is MY crack!)

register number = 99 + number when the high 2 digits of the number must be greather or equal to the version number and (number-101)/121 must be 0 !

example for MyStars version 2.3:

$$201 * 121 + 101 = 24422$$

^^

version 2.4 - greather then 2.3

so the serial will be 9924422 (adding the 99 to our number)

=====

Protel PCB 2.8:

Search for this string:

8B BE 7E FF

C6 85 2E AA 00 << CHANGE 00 TO 01

83 BE 7E FF 15

This also enables all features, and allows it to run under NT.

=====

Win-Arj 2.x:

WinARJ reg codes are created in the following way:-

Reg Code = (Sum of ASC values in name + WinARJ version number) \* 144

i.e. for WinARJ v2.5 and a username of ' ' {single space}

$$\text{Reg Code} = (32+250) * 144 = 40608$$

=====

Crack for All dos unboxed software

-----

Unboxed sells software by encrypting it and selling "keys" for it (guess you know the idea)... but the protection is so simple, that i didn't even made a keymaker for it... just rename your unboxed file (some .exe) into UB.EXE and run unbox.com in the same dir. Then go to the unlock dialogue and enter whatever you like, it should then unpack... have fun ;)

=====

AweVBank 96 Build 1020 Crack Patch

-----

This text crack will give you wannabe crackers some actual cracking experience.

If you are too lazy or stupid to implement this simple crack then tough shit! Do without!

1. Open the executable file awevbank.exe with a hex editor (Hex Workshop).
2. From the menu bar, click on Edit, Goto (or press Alt+F5).
3. In the Offset dialog box type 7021. Select the (Hex) and (Beginning of File) radio buttons in the dialog box also. Then click Go.

You should see this byte string:

C7 07 00 00 00 00 >original code

C7 07 01 00 00 00 >change exactly as shown

When you are finished editing, click File, Save (or Ctl+S) to save the

modified file. It's a good idea to choose to make a backup of the original file when prompted.

For you wannabe crackers, here is how the crack works.

The original assembler code reads as follows:

```
MOV DWORD PTR [EDI], 00000000
```

The modified assembler code reads as follows:

```
MOV DWORD PTR [EDI], 00000001
```

The DWORD at [EDI] flags the registration status of this program. A "0" is unregistered, while a "1" is registered. This crack changes the initialization instruction to set the flag to a "1" instead of a "0" so the program will always be registered whether a valid key has been entered or not. After this patch is applied, this program will be fully functional with NO expiration limitations. If you want your own name to appear in the title screen, choose Register from the Help menu and enter your name and click OK.

Enjoy!

Guess Who?

```
=====
=====
```

Snagit/32 Version 3.22 Crack patch

```
-----
```

This program must be patched in two areas.

All these characters "0" (entered from the keyboard) are zeros.

1. Using a hex editor (Hex Workshop) open the "snagit32.exe" executable file.
2. Click on Edit, Goto to bring up the Goto dialog box or hit Alt-F5.
3. Make sure that the "Hex" and "Beginning of File" radio buttons are selected.

In the "Offset" dialog box type 0E08, and click "GO" or hit Enter.

At offset 0E08h, you will see the following byte string:

```
0F B6 C0 89 07 >original code
```

```
66 C7 07 01 00 >change to these values
```

The original assembler code is changed as follows:

```
MOVZX EAX,AL
```

```
MOV [EDI],EAX
```

The new code reads:

```
MOV WORD PTR [EDI],0001
```

The value of the double word at address [EDI] is a flag indicating whether or not the software is registered. A "0" indicates not registered, while a "1" indicates you are a registered user. The patch simply makes sure that a "1" is always present.

For the 2nd part of the patch do the following:

1. Bring up the "Goto" dialog box again (hit Alt-F5 or use the Edit menu).
2. In the "Offset" dialog box type 0E27 and click "GO" or hit Enter.

At offset 0E27h, you will see the following byte string:

```
C7 07 00 00 00 00 >original code
```

```
C7 07 01 00 00 00 >change to this value
```

The original assembler code is changed as follows:

```
MOV DWORD PTR [EDI],00000000
```

The new code reads:

```
MOV DWORD PTR [EDI],00000001
```

Again we are simply making sure that the flag at [EDI] is always set to "1."

After the code is patched, save the file using the File menu tab. It is wise to choose to make a backup of the original file when prompted.

This purpose of this patch is to extend the evaluation period. If this software is used regularly, it should be registered.

Enjoy :-> Guess Who?

Serv-U Version 2.5i This Serving program is Great for NEW FTP users. This Copy of Serv-U Comes with a .TXT file containing the key to Register it for Full use. Serv-U Version 2.5i also has the "Hacker" fix which makes you even safer from past program "faults"

G6 FTP Server beta 7 This Serving program is great for Advanced FTP users. This copy of G6 FTP comes with a Key Generator to Crack the program so it is Registered for Full use. G6 FTP has Many other little options and is Used by Many FTP Servers.

BulletProof FTP Client Bulletproof FTP Client is a great FTP client that allows you to Queue your files then download them all at one time. The bad

thing is it may not work on all FTP's or PUBS you try to connect to.  
FlashFXP Client FlashFXP allows you to Transfer files from one server to another. This program is Great for sharing the Warez over the Internet.  
ASPI Driver Updater There are two programs in this .ZIP file. One Will check to see if your ASPI Drivers are properly installed and what version is installed. The second, When installed, will update your ASPI drivers to the Newest ones available.  
News Bin This is a News Group Reader. This will help you get info off the News Groups and Files.
